

THOUGHTS BEHIND LOGO AND COLOR SCHEME

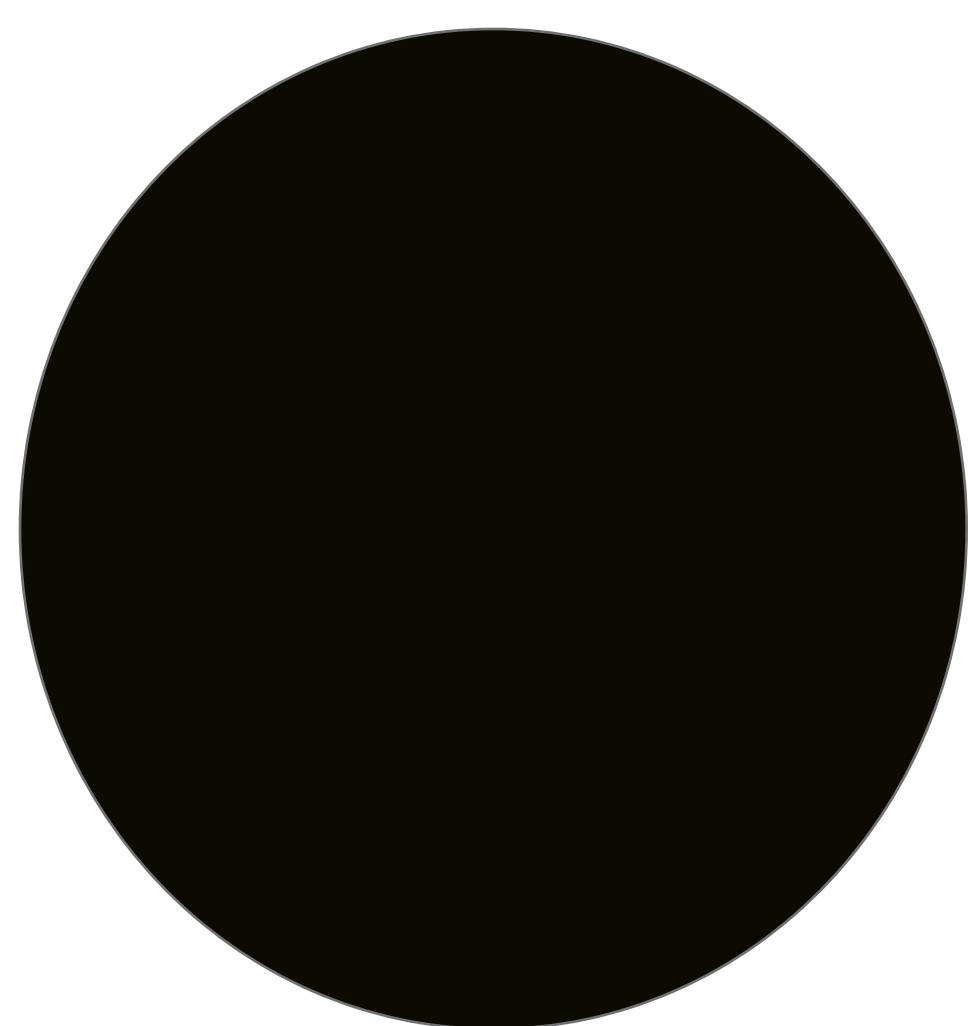

GOLD

#A1890D

The color Gold is named after the precious metal of the same name. The meaning of color Gold is multifaceted, often denoting generosity and compassion, as well as being synonymous with divinity and power in many religious settings.

BLACK

#00000

Power, elegance, sophistication, status, formality. Evil, death, grief, mourning, the occult. Mystery, bleakness, heaviness, depression, rebellion, fear.” A color of many sentiments.

LOGO

Fonts that are used for creating a logo is ancient Greek, why I chose this font? , well It gives the feel of ancient-ness as the site is for anime characters and most of the famous animes have storylines from old era so,

Use of the color gold in the logo because of colors one trait which is multifaced which means all anime have different perspectives each figure of anime character holds in once life when he owns them. Black is there for the power and elegance just like those figures black logo looks elegant and clean
